MuscogeeMoms.com Announces New Site Sponsor

COLUMBUS, GA, November 26, 2009 -- MuscogeeMoms.com is pleased to announce a new site sponsor, The Southeast Regional Autism Center (SERAC), a program of May Institute, affiliated with the National Autism Center

The Center offers a comprehensive set of educational and behavioral services to children and their families, private agencies, and public schools throughout the Tri-County area and beyond. The Center also provides services to military families stationed at Fort Benning and other bases across the Southeast.

SERAC selected MuscogeeMoms.com in order to spread the word about their services to parents with young children, the treatments that are available for autism and the resources that are available in the Chattahoochee Valley area. "The Southeast Regional Autism Center is very proud to be a sponsor of MuscogeeMoms.com. We are particularly pleased to join an online community that so richly supports parents of children with autism and other special needs," said Melissa Chevalier, M.S., BCBA, Program Director for the Southeast Regional Autism Center.
